ROD AND GUN CLUB FINISH SEASON WITH ENJOYABLE DAY AT THE NORTH FORK

LOTHIAN WINS CUP
FOR BIGGEST TROUT

Rod and Gun Club Spent Enjoyable Day in Competition at the North Fork.

The final competition of the season took place on Sunday, the party leaving town at 6 a.m., and though the morning was cloudy, the day proved ideal for fishing, and some good catches were secured.

Geo. Lothian won the championship cup for the biggest trout of the season with a speckled trout weighing 1 lb 11 oz. Bob Penman won the club prize on Sunday for the heaviest basket of the season, weight 5 1/2 lbs, and Bob Jenkins for the biggest grayling, weight 1 lb. A prize for the biggest bull trout was also given, name not received at time of making up report.

The outings have given great pleasure to the members, thanks to the efforts of the officials and committee of the club. A smoker will be held later in the season, when the presentation of prizes will be made.

BROMLEY-MORRISON
(Edmonton Journal)

The marriage was solemnized at St. Douglas' Church on Thursday, Aug. 9, of Florence Victoria, daughter of Mr. and Mrs. L. Morrison of Neepawa, Man., to Reginald Edward Bromley, son of Mr. and Mrs. A. J. Bromley, Dereham, Norfolk, Eng. The ceremony was performed by the Rev. L. H. Lowry of Gladstone, Man.

Three Attractive Features

The annual riding and camping expedition of the Trail Riders of the Canadian Rockies has many attractive features, but at the top of the list were undoubtedly the three charming maidens photographed above who took part in 250 mile ride, joining up with the main group that visited the Lake of the Hanging Glaciers. They are Kitty Mackay, Betty McCullough and Betty Hall, all of Philadelphia.

Personal and Local

Mrs. Clifford and daughter Hilda returned on Sunday from their vacation.

Mr. and Mrs. H. Olson and daughters Marie and Virginia left for Vancouver on Sunday morning for two weeks' holiday.

Joe Spieva was down from Corbin for the week-end and spent Sunday at Waterton Lakes Park.

Dr. Minish of Edmonton came down by car from Calgary on Monday to visit Dr. Borden.

Tom Perry took a party of friends to Waterton Lakes Park on Saturday evening for the dance at the pavilion there, at which there was a large number.

S. Leosky returned on Thursday from a month's holiday, part of the time being spent enjoying the sea air at Vancouver, and the balance visiting relatives at Three Hills, Alta.

Clarence Huffman of Calgary arrived last week to take a chair in the Cabinet Cigar Store and Barber Shop, where he will assist Mr. Graham in attending to the tonsorial requirements of the Coleman gens.

Mr. and Mrs. C. W. McBride and two children of Sedgewick, Alta., were the guests of Dr. and Mrs. Borden over the week-end. They were on a circle tour of the mountains, and were returning via the Crow's Nest Pass.

An error was made last week in a news item concerning the Canadian Legion, in which it was stated that Robert Lloyd was secretary. It should have been Robert Parry, who was appointed as delegate to the provincial convention at Medicine Hat.

G. Edgar Roy and Ed. Russell of Weyburn, Sask., were visitors on Thursday last, on their return from a holiday at Banff. They were delighted with the scenic attractions of the Rockies, especially the Crow's Nest lake and mountain.

Antrob's Sell Good Shoes

GREAT ATTRACTION THIS WEEK IS "DAWN" AT PALACE

Story of Martyrdom of Nurse Edith Cavell Will Be Shown on Film.

Sybil Thorndyke Will Portray Heroic Nurse Who Suffered Death for Betraying Soldiers.

One recalls the horror that swept throughout the world when it was known that Nurse Edith Cavell had been shot after trial by a German court martial for betraying British soldiers and Belgian refugees after the Germans had swept through Belgium. Much controversy raged over the story being shown on the screen, but after it was given a private showing before leading people of Great Britain and later of this province, it was considered a splendid story of the sacrifices and one that the people should be given the opportunity of seeing.

The title "Dawn" signifies the color early morn when this brave British nurse was escorted from her cell and with a prayer on her lips and with steadfast eyes stood before the German firing party which ended her earthly career of mercy and love.

The showing is for Friday and Saturday with a children's matinee on Saturday afternoon.

"RAMONA" DELIGHTED AUDIENCES AT PALACE

Probably no picture in recent years has so caught the popular fancy as "Ramona," in which the beautiful Dolores Del Rio plays the leading part. Friday and Saturday at the Palace this picture was seen by large audiences, and all were greatly pleased with its presentation. Manager Dow has given the public some excellent pictures and it is worthy of more than passing notice that he has exhibited a number of big productions ahead of the cities of the western provinces. For his enterprise he is deserving of the support of the public, for he has taken a back seat to none when it comes to securing the best for his patrons.

Mr. and Mrs. Wm. Bell and daughters, and Jean McDonald, left on Sunday for a two weeks' visit at Spokane, Seattle and other points.

Mrs. J. A. McLeod and children returned last week from Sebe Lake, where they had been spending the school holidays.

CHARGE LAID OF STEALING CAR

John McCulloch, aged 17, forced open the garage of Bud Clarke on Wednesday afternoon last, and took his Chevrolet touring car. On the Blairmore road he collided with a telephone pole, damaging the car to the extent that it will cost \$150 to repair it. This was the second time the car had been taken, and as the owner can get no satisfaction to make good the damage, he was instructed by the police to lay a charge against McCulloch.

Mrs. G. R. Powell returned on Friday from a visit to Calgary and Banff, her daughter, Mrs. Carson, and niece, Miss Virginia Fehr, returning direct from Calgary to Winnipeg, after spending a few weeks visiting with Mrs. Powell.

Mr. Geo. Pattinson and daughter Jean, Mr. and Mrs. H. T. Halliwell, and Mrs. T. Flynn and Joanna spent a pleasant day on Sunday at Waterton Lakes Park. Mr. Pattinson driving the party in his fine new Pontiac car. The attractions of this fine resort were greatly enjoyed, and many cars from Alberta and from the United States as far east as Michigan were noticed there.

HOSPITAL BOARD ENGAGE NEW STAFF

Miss Treffry, Formerly of Winnipeg and Brandon, Appointed Matron by Board.

With the resignation of Miss Florence Morrison, who for two years rendered excellent service at the Miners' Hospital, the position was filled by the appointment of Miss Treffry, whose experience in Winnipeg in charge of the Elizabeth Crowe Memorial Hospital, and as matron of Shaunavon Hospital, especially fits her for the duties as matron here. The vacancies caused by the completion of the terms of Miss Wyatt and Mrs. Minchin will be filled by Sept. 1st, and in the meantime Mrs. Silverthorne of Calgary and Mrs. Barnes of Blairmore, both registered nurses of wide experience, are on duty. Mrs. A. Lonsbury, who for some time has been acting as special nurse as occasion required, will continue in that capacity.

HOSPITAL NOTES

Acknowledgment is made by the matron of the following gifts to the hospital during the week: Tony Nicholas and the Rod and Gun Club, a supply of fine fresh trout, which were especially appreciated by the staff and patients, and magazines and books from Mr. O. E. S. Whiteside, which are very acceptable to the patients.

Patients for the week ending Aug. 20 as follows: Mrs. Bouquerelle, Cowley, operation for appendicitis; S. Howarth, appendix operation, and seven operations for tonsils.

The following are also patients: Mrs. Distabelle, Maureen Cooke, Joe Sygudek, and Al. Lonsbury.

Chas. Murdoch is still a patient with an infected foot, resulting from an injury.

Joe Andros was discharged on Aug. 18, and Henry Raymond on Aug. 17.

A Brocklehurst had a serious scalp laceration following an operation when an attack of pleurisy developed. He was progressing 'splendidly' up till then. Since Monday he has shown improvement.

Service at St. Alban's church will be held on Sunday morning at 11.15.

PEKOE TEA

The Orange Pekoe is something extra—a special tea. In clean, bright Aluminum

An Important Experiment

Bringing ten thousand of the vast army of unemployed British miners to assist in harvesting Western Canada's 1928 grain crops is an experiment on a large scale that will be watched with great interest and sympathy not only in Canada and Britain, but throughout the Empire. That it is an experiment confronted by many difficulties and not free from dangers is fully recognized, but in view of Canada's present need for harvest hands, and Britain's serious and apparently unsolvable problem of unemployment, it is one well worth while.

Unquestionably there has arisen a feeling in the Old Land that Canada, with its sparse population and great areas of vacant lands and enormous unexploited natural resources, ought to come to the relief of Britain and the British people through the acceptance of large numbers of the unemployed, and that in doing so this Dominion would not only render a real service to these workers and the Empire but would ultimately be well repaid through the infusion of so much British blood into the cosmopolitan citizenship of this country.

In Canada itself there are men more or less prominent in the life of the country who are critical of the immigration now coming into the Dominion and who loudly declare that the British Isles be given a preference over all others, even to the extent of excluding those of other than British birth.

Opposed to these groups is a large body of Canadian opinion which holds that it would be a mistake not only for Canada but for Britain to bring into this Dominion large numbers of the British unemployed who the fitness and qualifications which would enable them to make successful citizens in this newer land. As the Minister of Labor recently pointed out, it would be no kindness to bring unemployed men from Britain unless there is employment for them here, and that no good service would be rendered the Empire by lessening the number of unemployed in Britain and sending an acute unemployment problem to Canada.

It is recognized, too, that in Canada employment is subject to seasonal changes, and that even under the most favorable and prosperous conditions a measure of unemployment is inevitable during the winter months. Winter employment is at low ebb in the cities and larger towns during the winter, and unless winter employment on the farms can be secured for them, British immigrants might fare badly, through no fault of their own, or the fault of anybody else. Between April and November, the situation is entirely different with farm work, railway construction, building operations and municipal improvements and works of all kinds under way. December to March is the critical period.

Under the arrangement whereby these ten thousand unemployed British miners are coming to work in the harvest fields, it is provided that the Canadian authorities will do everything in their power to secure winter farm employment for them, but that all those who cannot be so placed, or prefer to return to Britain, must be returned.

For the sake of these men first and foremost, and for the sake of Canada and Britain secondly, it is to be hoped that by far the greater number will be placed in all-the-year round employment. Canada wants these Britishers, and they should be accorded a hearty welcome and every possible chance to make good. In any mass movement of population there is bound to be a number of misfits, chronic grogners and hopeless incompetents, but the experiment being made should not be judged by these exceptions, but by the measure of success attending the movement as a whole.

Harvest time in the West is a time of stress. It is a strenuous period, when anybody is obliged to work long hours. It is a time when the farmer, anxious to secure in safety the results of a year's labor, is apt to be impatient and exacting, and to these miners unused to long hours and engaged in unfamiliar work, the farmer may appear to be a hard taskmaster. There must be a recognition of these differences and difficulties on both sides. The harvest hand should strive to realize to the full his own inexperience and shortcomings in his new environment and exert himself to the utmost to give satisfaction and make good. The farmer employer, on the other hand, should exercise a maximum of patience and endeavor to teach these men and bring out the best in them in the hope and expectation of encouraging them to do their best and inducing in them a real liking for Canada and a determination to remain and make a success of life in this country.

These British miners, if, as a harvest hand, they have a man seeking to do Farmers too, should co-operate to the fullest extent possible with the Dominion and Provincial Governments in finding winter employment for the best and make good arrangements should, if possible be made to retain him throughout the winter and until work becomes plentiful in the spring of the new year.

Judicially handled, and with everybody striving to do his best, this experiment with British miners may well prove to be a turning point in the history of immigration to Canada. The British Government is now training an additional 21,000 miners and their families for agricultural life in the Dominions. If the coming ten thousand harvesters make a success of their undertaking, and if the Canadian people unclench their hand to do so, this country will undoubtedly receive the bulk of these other 21,000 partially trained men and women. Canada wants them, and our people should do everything in reason to encourage them to come here.

The present movement presents a golden opportunity, therefore, to those who have been outspoken in their criticism of past immigration efforts from Britain. It is now up to them to throw themselves with equal vigor into the task of finding permanent work for the thousands who are now or shortly will be in our midst.

Gyros To Meet At Edmonton

Northern City Chosen As Next Meeting Place Of District 8

Edmonton was chosen as the next meeting place of District 8 Gyros at the concluding session of the district meeting at Nelson, B.C. Robert Muir, secretary of the Edmonton club, was elected district governor and Ira McNaughton, of Lethbridge,

Blistered Feet.

Platinum In Canada

Canada is the third largest producer of platinum among the countries of the world, Russia and Colombia, South America, holding first and second place respectively. Last year Canada produced 11,228 fine ounces of platinum valued at \$717,615.

"What are diplomatic relations, father?"
"There are no such people, my boy."

Big Land Deal

Ten Thousand Acres Of Farming Land Purchased in Watnright District

What is stated to be the largest land deal ever consummated in Northern Alberta was completed here when the Mid-West Development and Finance Corporation purchased 10,000 acres of choice farming land in the Watnright District at a price of \$200,000. There are 8,000 acres under cultivation and the land is laid out in twenty units which are being rented by progressive farmers.

ST. VITUS DANCE

A Trouble That Usually Attacks Young Children

St. Vitus Dance is the name generally given to a disease described by medical men as chorea. This trouble usually attacks young children, though older people may be afflicted with it. The most common symptoms are a twitching of the face and limbs. As the disease progresses the twitching takes the form of spasms, in which the jerking motion may be confined to the face or all the limbs may be affected. Frequently the patient is unable to hold anything in the hands or walk steadily. In severe cases the speech is often affected. The disease is due to debility of the nerves and relief comes through any enriched food supply. Dr. Williams' Pink Pills have been most successful in reaching this trouble through their specific action on the blood which it enriches and purifies. The following instance proves the value of Dr. Williams' Pink Pills in this trouble. Mrs. Thomas Down, Bath, Ont., says: "Dr. Williams' Pink Pills have been in use in my family for years and always with good results. My daughter, the life of my only son. At ten years of age he grew very nervous and the trouble developed into St. Vitus' Dance. His legs and arms would jerk and twitch, then his speech was affected, and his condition was able. Just then there came to me a little book telling of Dr. Williams' Pink Pills and I decided to give them to him. By the time two boxes were used there was an improvement in his condition and by the time six boxes more were taken all traces of the trouble had disappeared, and he was well and strong. I have also given the pills to my growing girls, and I know of no better strengthening medicine. I may add that the same applies to grown-ups as well."

You can get these pills through any medicine dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Travelling Clinic

Government Clinic Pays Visit To Peace River District

A Government travelling clinic has been operating in the Peace River District this season. At five population centres a total of 314 children were examined in 10 days. A total of 124 minor operations were performed, 279 children given dental examinations, 144 extractions performed, and other dental treatment given to 128 children.

Gasoline Tax Revenue

In the first two months, May and June, in which the three-cent gasoline tax was in force in Saskatchewan, \$325,000 was collected, it was officially announced. When the gasoline tax act was passed at the last session of the Legislature, it was estimated that the revenue to the province would be, for the full year, \$700,000.

Stop the Cough. — Coughing is caused by irritation in the respiratory passages and is an effort to dislodge obstructions that come from inflammation of the mucous membrane. Treatment with Dr. Thomas' Electric Oil will allay the inflammation and in consequence the cough will usually stop. Try it and you will be satisfied.

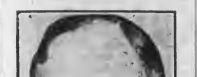

Canada has the most complete governmental system of wireless telegraphy of any country.

WOMAN SO SICK COULD NOT WORK

Helped by Taking Lydia E. Pinkham's Vegetable Compound

Grainland, Sask.—"I am glad that I heard of that Lydia E. Pinkham's medicine and I will not be without it again. I was so sick that I could not get out of bed, and I could not see on the machine. My husband told me of Lydia E. Pinkham's Vegetable Compound and I am telling all of my friends how good it is and I will answer all letters I get from women."—MRS. MARY SCHULTZ, Grainland, Sask.

MUST TAKE REST

Viscount Haldane, 72, former lord chancellor and secretary of state for war is ill and has been ordered to take a complete rest.

For Evacuation Of Rhineland

Declaration Of Policy Adopted At Socialist Gathering

Immediate evacuation of the Rhineland by France, Belgium and England was demanded in a declaration of world policy adopted by the socialist labor international congress meeting at Brussels. Re-establishment of German sovereignty in the Saar region was also demanded. The clause covering the demands was applauded by the French delegation which joined the Germans in a demonstration for its adoption.

Its Quality Sells It.—The fact that so many thousands of intelligent people continue to use Dr. Thomas' Electric Oil speaks volumes for its healing efficiency. Ever since it was first introduced it has grown steadily in public favor, owing entirely to its usefulness in relieving pain and healing sickness. As a specific for cuts, burns, scalds, and various inflammatory pains its record is beyond reproach.

Take Up Homestead Lands

Demand Has Been Very Brisk In Northern Alberta

Demand for homestead land in the northern part of Alberta continues very brisk, judging from the records at Grand Prairie and Peace River. At this former point 289 entries were reported during the month of June, making a total of 732 for the three months period ending June 30th, and at Peace River 400 entries in June, making up a total of 1,040 for the three months.

HE DIDN'T THINK COULD BE RELIEVED

Mr. John Mellick, Farmer, Alta., writes: "I am a returned soldier, and when I came home from overseas I suffered greatly with dysentery. This doctor said it was chronic and did not think it could be relieved. However, he doctored me for quite a while, but did me no good. One day the druggist asked me if I had ever tried

"Oh, his recommendation I bought a bottle and after I had taken it some relief, so I got two more, and have never had the dysentery since 1922."

Put up only by The T. Milburn Co., Limited, Toronto, Ont.

Lean Men Better Insurance Risks

In conversation an English insurance man said that, unlike Caesar, insurance companies prefer lean men, as they consider them better "livers" than men who are fat. The English added that men of moderate girth usually put on considerable weight if they give up smoking. His observation of this particular method of weight-building has extended over many years.

Grain Stocks Larger

The Dominion Bureau of Statistics reports the following as the stocks of grain in Canada at the close of the crop year ended July 31, 1928, as compared with the same date last year within brackets. The quantities are expressed in imperial bushels. Wheat, 74,484,052 (59,768,635); Oats, 28,712,183 (23,045,449); Barley, (1,283,777); Flax seed, 1,296,347 (2,056,106).

The most obstinate corn fall to resist Holloway's Corn Remover. Try it.

The wrongs of other people are continually getting mixed up with our rights.

Let Minard's Liniment Relieve Pain.

Laying Heavy Steel Rails

C.P.R. Replacing Rails With Heavier Steel On Maple Creek and Brooks Subdivisions

Good progress is being made with the relaying of steel on the Canadian Pacific lines in the Calgary division during the past few months. One hundred and thirty-five miles of new rail has been laid on the Maple Creek subdivision, that is between Medicine Hat and Swift. Current, while the relaying is now going on in the Brooks subdivision, between Calgary and Medicine Hat.

The relaying consisted of the replacement of 80 and 85 pound steel by rails weighing 100 pounds per foot. The heavier rail is necessary in view of the increased speed of the trains and their greater weight. As mentioned above, 135 miles of heavy rail have been laid on the Maple Creek subdivision. On the Brooks subdivision the mileage of heavy steel will be about 120. It is estimated that the cost of relaying the track is approximately \$100,000 per hundred miles, thus the work on the Calgary division this year will cost the Canadian Pacific Railway a total of about \$2,605,000.

Water Power Installation

Two Million Horsepower To Be Added Within Next Few Years

Two million horsepower will be added within the next few years, it is estimated by the department of the interior, be added to the water power installation in the Dominion within the next few years. This new work will require a direct investment of at least \$200,000,000.

The annual statement of the Hon. Charles Stewart, minister of the interior, with regard to the progress of water power development issued very brief, judging from the records at the beginning of the year predicted an addition of 375,000 horsepower to the total installation in the Dominion during the first six or seven months of 1928. A mid-season review of conditions now indicates that during the whole year as much as 550,000 H.P. will be added, either in new development or in addition to existing stations.

Russia Needs Capitalists

It was understood that Russia is attempting to float a \$15,000,000 loan abroad, to be used in support of the Russian railway system. Negotiations are said to be under way in Berlin, London and New York.

All mothers can put away anxiety regarding their suffering children when they have Mother's Grain Worm Exterminator to give relief. Its effects are sure and lasting.

Farm Credits

Steps To Be Taken To Put Into Operation Recent Legislation

With the return to Ottawa of Hon. J. A. Robb, minister of finance, definite steps will probably be taken to put into operation the legislation of 1927 authorizing farm credits.

The first step, it is stated, will likely be the appointment of a central board to be known as the Canadian Farm Loan Board. Under the statute, this board will be composed of four members, one of which will be the Minister of Finance.

Six provinces have passed the necessary legislation, electing to come under the scheme. These are: Quebec, Alberta, Manitoba, British Columbia, New Brunswick and Nova Scotia. Ontario, Saskatchewan, and Prince Edward Island had not as yet taken final steps in this direction.

Prior to 1825 women's shoes were made without heels.

VISCOUNT PEEL IS CHOSEN TO HEAD DELEGATES

London, Eng.—It is announced that in view of the appointment of Lord Ingleham, lord chancellor, as acting prime minister in the absence of Premier Baldwin, Viscount Peel has been appointed chairman of the United Kingdom's delegation to the meetings of the Empire parliamentary Association in Canada in the next few weeks.

Viscount Peel is first commissioner of works in the government and has held numerous appointments since 1900. He was under secretary of state for war from 1919 to 1924. He is 61 years of age. The prime minister having expressed a strong desire that the United Kingdom's delegation should include two members of the government, the association has invited Hon. P. G. Williams, parliamentary secretary to the board of trade to join the delegation.

The delegation is expected to arrive at Quebec on August 24, and in company with other Empire delegations will make a transcontinental tour of the Dominion before leaving Sydney, N.S., on October 5.

Fatal Crossing Accident

Three Killed and One Badly Injured At Grade Crossing In Alberta

Calgary.—Three were killed, one fatally hurt, subsequently succumbing in hospital and one other dangerously injured in a crossing accident at the town of Calgary.

The dead are A. J. Clarke, deputy sheriff of the town of Sunburst, Montana, his wife Jennie, and his two boys, Garry aged ten, and Lloyd aged four.

A daughter, Ada, aged about 15, lies in hospital in High River in a precarious condition.

The party were touring on holidays and had been staying at Crowsnest. They left there with the intention of driving to Calgary.

When within 27 miles of their objective they met tragedy, due, it is thought, to the driver being blinded by the oblique rays of the setting sun as he made his way in a north-westerly direction over the crossing.

Farmers Seek Relief

Nearly Million Dollars Damage From Floods In Southern Manitoba

(Winnipeg).—One hundred and fifty farmers of the Springfield District in southern Manitoba, claiming to have suffered loss to their crops amounting to nearly a million dollars, have directed as the result of floods, have directed an appeal to the government for drainage relief.

According to a spokesman for the distressed farmers, approximately 100 sections of land were inundated during June and July, destroying grain after it was in the head, and ruined grazing lands.

The government is being urged to reconstruct its drainage system in the affected area. Premier John Bracken and Hon. W. R. Dobb, minister of public works, following a trip of inspection of the flooded lands, promised early consideration of the request.

Record Crop In Australia

Prospects For One Of Greatest Crops In History

Victoria, B.C.—Australia as well as Canada is enjoying the prospects of the greatest crops in her history, according to Sir J. J. Smith, millionaire publisher and promoter of Sydney, N.E.W., who arrived here recently on board the liner Aurang.

"Australia's wool and wheat crop for 1928 will be the most immense the country has ever produced," said Sir J. J. Smith. "I hesitate to suggest a figure to represent the vast yield. Suffice it to say that we fully anticipate it to be a record in every way."

Mine Blast Is Fatal

Calgary.—L. L. Johnson, for years chairman of the Department of Soldiers' Civil Re-establishment at Calgary, was instantly killed when a charge of dynamite exploded prematurely in Mr. Johnson's mine at Dods, Alta., according to information received here.

Miners For Harvest Fields

The P.A.S. Men.—Men are flocking in from railway construction camps along the Elgin Valley railway seeking higher wages in the harvest fields in the interior. Five hundred men have departed from the P.A.S. on the last two trains going south.

W. N. U. 1747

Praises Pool System

Toronto Professor Says Pool Has Revolutionized Morale Of Farming Community

Williamstown, Mass.—Agricultural co-operation is not merely a marketing device but a means of lifting the farmer to a plane of greater prosperity and keeping him there, Prof. C. R. Fay, of the University of Toronto, told the Institute of Politics here.

"In Canada," he said, "the wheat pool has revolutionized the morale of the farming community, relieving the farmer of the difficulty of dealing with the selling of his grain and basing all farm marketing on statistical knowledge."

The co-operative system he declared, is of special benefit to the small farmer, whose place of living has been raised to the highest level it ever reached.

In the United States the government's attitude toward the farmer's problems is one of encouragement through active assistance in research and educational facilities. C. L. Christensen, chief of the department of co-operative marketing of the department of agriculture, said.

Receives Re-Appointment

Dr. McLean To Be Assistant Chief Commissioner Of Rail Board

Ottawa.—Dr. Simon J. McLean, Ottawa, has been re-appointed assistant chief commissioner of the board of railway commissioners. Dr. McLean's term of office expired August 6, and his re-appointment for a further period of ten years. Dr. McLean was originally appointed to the board in 1908.

The term of Commissioner Frank Oliver will terminate toward the end of September, when Mr. Oliver will have reached the age limit of 75 years.

Dr. McLean drafted the Dominion Railway Act, and his re-appointment for a third term creates a precedent. Since the formation of the Board of Railway Commissioners in 1904, Dr. McLean has been the only commissioner to be re-appointed after expiration of his term.

While no official statement has been made in the matter, it is rumored that legislation may possibly be introduced at the next session of Parliament providing for the superannuation of members of the board.

Death Of Canadian Novelist

Mrs. Isabel Ecclestone Mackay, Dies At Her Home In Vancouver

Vancouver.—Mrs. Isabel Ecclestone Mackay, Canadian novelist, poetess and playwright, wife of Peter J. Mackay, official reporter of the Supreme Court of British Columbia, died at her home here after a year's illness. She was born in Woodstock, Ont., 52 years ago.

The late Mrs. Mackay was the daughter of Mr. and Mrs. Donald MacLeod MacPherson, of Woodstock, and came to Vancouver 19 years ago.

She was the authoress of several novels, including "House of Windows," "The House of Windows," "Morning," "The Window Gazer," and "Glenarrow." Mrs. Mackay was also the writer of a book of lyrics, "Fires of Driftwood," and a volume of poems for children entitled "The Shining Ship."

She also wrote a number of plays which have been produced in Canada and the United States.

In addition to her husband she leaves three daughters.

Inspect Australian Ship

12,000 People Visit New Cruiser During Stay At Montreal

Montreal.—H.M.A.S. Australia, flagship of the Royal Australian Navy, sailed for Quebec following a visit of several days to Montreal. It is estimated that 12,000 persons visited the new cruiser while she was here.

The Australia will remain at Quebec four days, following which she will proceed to Halifax, which will be visited on August 22. Other ports to be visited include Boston, August 25; New York, August 30; Chesapeake Bay, September 4; Colon, September 17; Tahiti, September 20; Wellington, N.Z., October 9; Brisbane, Australia, October 17; Sydney, N.E.W., October 23.

Will Visit Ireland

Washington.—Secretary of State Kellogg has officially decided to visit Ireland after signing the fifteen-power anti-war treaty in Paris, August 27, in order to return the call of President Cosgrave of the executive council of the Irish Free State, made during his visit to this country. It is not unlikely that Mr. Kellogg also will visit London.

Gold Strike In Ontario

Rich Find Is Reported In Vicinity Of Mine Centre

Toronto.—A special despatch to the Mail and Empire from Lachlan, Ont., says:

"Reports from Mine Centre, west of Port William, on the Canadian National Railways, bring word of what is described as a sensational gold strike made on the Johnson claims at that point. The claims are located south of the Foley mine of British-Canadian Mines, Ltd., and east of Little Vermilion Lake.

"A mining engineer returning from the scene of the strike said that the ore taken from the surface is glittering with visible gold which would run thousands of dollars to the ton, and is said to equal or even eclipse the remarkable find made on the Isabella property of Northern Red Lake Mines, Ltd., reported several weeks ago.

Message From Amundsen

Believe Note Found In Bottle To Be In Handwriting Of Lost Explorer

London.—Despatches to the Daily Mail from The Hague state that the Norwegian Minister at Amsterdam announced an apparently genuine message from Roald Amundsen, noted explorer who was lost while participating in the expeditions seeking the crew of the wrecked Polar dirigible Italia, had been found in a bottle near Rotterdam.

The message, which was compared with Amundsen's handwriting, was said to be authentic, gave the position of the explorer and his party on July 1.

Rotterdam is in the Netherlands Islands in the North Sea.

Amundsen and four companions have been missing since they started in a French seaplane to search for the Italia party.

HON. PHILIP ROY RECOMMENDED AS ENVOY TO PARIS

Ottawa.—Hon. Philippe Roy has been recommended by the Dominion Government to His Majesty the King for appointment as Canadian minister plenipotentiary to Paris, Premier King has announced.

Mr. Roy has been Canadian commissioner in Paris for the past 18 years.

No action to appoint a Canadian minister to Tokio has yet been taken by the prime minister, said.

It is expected that the formal commission for the appointment of Mr. Roy will be issued by His Majesty in time for the opening of the legation in Paris during the first week of October.

Mr. Roy was born on December 18, 1868, at St. Francois, Que., and was called to the Senate on March 8, 1906. He was appointed to Paris on May 1, 1911, being one of the administration of the late Sir Wilfrid Laurier. Mr. Roy was also appointed agent general for the province of Quebec at Paris on January 15, 1912.

BRITISH STUDENT HARVESTERS

British university students seeking information, experience and adventure are coming to Canada to help with the harvest. The West this year and places for them are being found by the colonization department of the Canadian National Railways. If they are all of the type of the first tour to arrive in the West both Canada and Great Britain should gain by their enterprise. The photograph shows the advance guard of four of these young men. From left to right, with the places where they are being stationed, they are: W. D. Harrison (Marquette, Sask.); E. A. Conway (Winnipeg, Sask.); F. W. Beale (Carleton Place, Ont.); and J. D. Preston-Jones (Aberdeen, Scotland).

Heads Native Sons Of Canada

Dr. J. H. Cotton, of Toronto, was elected president of the National Council of the Native Sons of Canada at a meeting in Regina, Regina, Dr. Cotton is the first eastern member of the organization to be appointed to the presidency. Formerly he was appointed to the vice-presidency of the council.

Influenza In The North

Serious Epidemic Has Broken Out In Mackenzie River District

Winnipeg.—A serious epidemic of influenza has broken out along the banks of the Mackenzie River with considerable loss of life, according to a letter received from Rev. W. B. Singleton, principal of the Hay River Indian school of the Indian and Eskimo mission of the Missionary Society of the Church of England.

At Fort Resolution, where Slave River flows into Slave Lake, 20 deaths were reported. At Hay River, towards the west end of the lake, there were ten deaths. The toll of deaths at other points was thought to be even greater, the letter stated.

The Manitoba Division, Dominion Department of Indian Affairs, had received no information of any epidemic in this province.

Fuller Party Reported Safe

Have Been Reprovisioned And Are Now Headed For Shores Of Hudson Bay

Regina, Sask.—Three weeks ago the John D. Fuller expedition of student geologists from Iowa into the north was safely launched on a new and shorter route to Hudson Bay. The four men, who have been almost given up as dead for the past six weeks, have been reprovisioned and given new equipment for the trail. They are now headed along the route through Neutlin Lakes and smaller bodies of water and down the Thielvaz River to Hudson Bay. They are expected to emerge near Driftwood Point, halfway between Chesterfield Inlet, their first objective, and Fort Churchill.

Church Is Desecrated

St. Jerome, Que.—Vandalism entered the Roman Catholic Church here and laid waste many sacred articles. Sacred vessels were thrown around the church, while the priests' vestments were torn and slashed and scattered around the edifice. A chalice containing the Host was broken to pieces.

Hope For Peaceful Relations

Kellogg Peace Pact A Revolutionary Policy Among Nations

Wausau, Wis.—Within a fortnight of the date on which the international treaty for outlawing war is to be signed, President Coolidge declared before the Wisconsin State American Legion here, that the Kellogg pact "holds a greater hope for peaceful relations than was ever before given to the world."

The President maintained that by taking a leading position in securing this agreement, the United States proved its pacific inclinations toward all nations.

"We have demonstrated," Mr. Coolidge declared, "that when we have said we maintained our armaments, not for aggression, but purely for defence, we were making a candid statement which we were willing to verify by our actions."

"The President said that while it would be too much to suppose that war had been entirely banished, yet a new and important barrier, reasonable and honorable," has been created.

"This agreement proposes a revolutionary policy among nations," he said. "It holds a greater hope for peaceful relations than was ever before given to the world. If those who are involved in it, having started it, will finish it, its provisions will prove one of the greatest blessings ever bestowed upon humanity. It is a fitting consummation to the first decade of peace."

To Take Care Of British Harvesters

Effort Will Be Made To Provide Permanent Work Throughout Winter

Saskatoon, Sask.—If the British miners who are coming to the west end of the harvest fields do not obtain permanent work throughout the winter it will not be the fault of the railway companies or want of effort on their part.

No stone will be left unturned to try to keep them here and in the opinion of T. Devlin, local manager of the Canadian National colonization department, future immigration from the British Isles depends largely on the success or failure of this venture.

Mr. Devlin said that he could see no reason why the project should not prove an outstanding success. "The men who are coming are by no means strangers to hard work and they know just as much about farm work as the average harvester from Eastern Canada," he says.

Expedition Well Equipped

Commander Byrd's Antarctic Venture May Cost One Million Dollars

New York.—The Antarctic expedition of Commander Richard E. Byrd, which starts from this port this week, will be the most extensive expedition in the history of exploration and may cost one million dollars.

At the expedition's headquarters here, it was said the cost would be not less than \$850,000, and before the expedition returns to this country they may reach \$1,000,000.

Contributions returned to date include \$435,000 worth of equipment and \$237,543 in cash.

The total expense of Commander Byrd's North Pole expedition in 1926 was \$140,000.

SPIRITED FIGHT ON LAKE ERIE WITH RUM FLEET

Buffalo.—The struggle for supremacy between the rum running fleet on the Niagara River and Lake Erie blazed into spirited action in which government boats set afire and sank one craft and captured two others carrying contraband liquor and ale.

At the Buffalo Police show speedily carried many cases of both whiskey and ale into the hands of the federal patrol.

Earlier in the day the C.G. 121 sighted a suspicious looking craft of Brockton, on Lake Erie. A chase followed during which the government boat fired 50 rounds.

After the gun fire had set the rum runner ablaze the coastguard boat took off the crew of two men and stood by while the damaged craft burned to the water's edge.

The other boat was caught on Lake Erie, off Barcelona. Three hundred rounds were fired at it before the crew could be taken to land and surrender. Two men and a small quantity of liquor were found.

MANY NATIVES IN NORTH SUCCUMB TO 'FLU EPIDEMIC

Edmonton.—Scouring the population along the banks of the Mackenzie River, the influenza epidemic which has been raging in the North for some time has taken a toll of 275 of the native population within a period of a couple of weeks, according to a report received in Edmonton.

"As far as is known only one white man has succumbed to the disease.

A total of 53 are now known to have succumbed at Fort Simpson alone, according to a radio message received by Jack Stewart, a trapper at that post. The message was sent by a man named Sherwin.

The full toll of the deaths caused by the epidemic is not known for months until police patrols and trappers returning to their lines among the hills and barren land find trepces with their occupants possibly all dead.

The points along the Mackenzie that have been badly hit are: Fort Resolution, with 53 deaths; Fort Simpson, 53; Fort Rae, 33; Fort Norman, 28; Fort Goodhope, 26; and Fort McPherson, 21. Deaths at other points have also been heavy.

Northmen say that the natives are apathetic when attacked by the disease, sitting moaning and wailing in their camps and cabins, instead of making an effort to fight the sickness. They throw away the drugs given them by medical men and missionaries because it does not effect an immediate cure and wait patiently for the day to recover.

Only one white man has died in the North from the disease so far as has been reported.

All Bitterness Forgotten

Remarkable Tolerance Is Shown In Irish Free State

Victoria, B.C.—Right Hon. Hugh Kennedy, chief justice of Ireland and honorary member of American and Canadian Bar Associations, was the guest-speaker at the Canadian Club luncheon here.

He spoke of a fight with England but that fight terminated in a treaty of peace, and a reconciliation was reached "which I believe has wiped out the rancor which existed in the past," the chief justice said.

One of the first steps in the reorganization of the country was placing agriculture on a firm basis, as agriculture for years to come would continue as the foundation of prosperity in Ireland, he said.

He said that the Free State had shown a remarkable degree of toleration with the test of religion never entering into politics. As an example, he referred to the fact that the minister of finance was a Presbyterian from an Orange county.

Aerial Sham Warfare

Two Accidents Was the Result Of The Manoeuvres Over London

London, Eng.—The aerial sham warfare over London, in which hundreds of "planes" have been engaged for four days, was marred by the two accidents of the manoeuvres. No one was hurt.

Flying Officer L. C. Bennett was forced to jump in a parachute when his plane burst into flames over Richmond. He landed safely on a house top. A "raiding" bomber, engaged in an attack on London, made a forced landing in a field and was damaged, the pilot and observer escaped without a scratch.

Recognition Of Ecuador

United States Now Convinced Of Country's Good Intentions

Washington, D.C.—The United States has accorded complete recognition to the Government now functioning in Ecuador, the State Department announced.

Secretary of State Kellogg has informed the Ecuadorian Government by note that beginning immediately the United States, convinced of Ecuador's good intentions to return to a constitutional form of government which it abandoned in 1925, accords recognition to the present regime.

Montreal Garment Workers Quit

Montreal.—Twelve hundred amblers and dressmakers in Montreal are affected by the present "stoppage" of work of local members of the Amalgamated Clothing Workers of America. It is not spoken of as a strike by union officials because all the shops of the city are affected. Speedy termination of the dispute is expected.

THURSDAY, AUGUST 23, 1928

Cause for Optimism

The past two months have seen a period of great activity in the Crows Nest Pass, due to various factors, the chief of which has been the steady operation of the steam coal mines, with its resultant stimulation of business generally. With a payroll averaging in Coleman alone of \$60,000 every two weeks, and corresponding amounts in Blairmore, Bellevue and Hillcrest, it means that coal mining in this area brings in cash during the year an amount approximating four and a half millions dollars. The purchasing power of this amount and its circulation through the varied business channels is a factor well worth considering in this area of the province.

Another source of increased business has been the tourist traffic. Though individually the purchases of tourists may appear comparatively small, in the aggregate they amount to thousands of dollars throughout the season, and the Crows Nest Pass has received its share from this source.

Good crops in 1927 and the prospects of even better returns throughout the western provinces in 1928 give promise of just as steady business in the steam coal area as soon as the peak of the grain movement is passed. This has undoubtedly been one of the best years in the Pass so far since the close of the war, and it serves to show how dependent industry is on the great grain growing sections of the western provinces.

A Red Hot Bishop

George Exton Lloyd, the bishop of Saskatchewan, is becoming very much "het up" over foreign immigration. He claims that whereas in 1871 those of British blood or origin were 60.5 per cent, the 1921 census of Canada shows it to be only 55.4 per cent.

A point the reverend gentleman possibly overlooks is that though Canada has received quite a large percentage of continentals since 1871, yet the younger generation—that is the children of these immigrants—are rapidly being assimilated into Canadian national life. Naturally their original language and customs prevail largely among the older folks, but take a survey of the public schools to-day and one comes to the conclusion that there is no fear for the alarm the reverend gentleman expresses, for these children of foreign born parents will become loyal Canadians if they are given the proper leadership. While a limit must be drawn in admitting continentals, no good purpose can be served by a bishop of the church flinging vile epithets at people of other nationalities than our own.

Forty Years Ago

"D" troop of the N.W.M.P. is on its way back from Kootenay through the Crows Nest Pass. Supt. S.B. Steele and Inspectors Wood and Huot are with the troop. Mrs. Wood accompanies her husband. The troop will go into camp on Jerry Pott's bottom. Supt. Neale, with transport, will meet the division at Crows Nest Lake."

The foregoing from the Calgary Herald gives cause for reflection over the events that have happened since 1888. At that time the Crows Nest Division had not been built, and the only method of travel was by pack trail. The big ranches of those days are no more; in their place farms have been developed, coal has been dug from the hills in millions of tons, automobile roads traverse the province, and life moves at a much swifter pace. One of the old links of those days is visiting here this week, another resides at Pincher Creek in the person of John Herron.

When one reviews the development of the past forty years, and the wonderful results accomplished, who can prophesy what the next forty years will bring forth? Undoubtedly opportunities exist in fully as great a measure as in the pioneer days of settlement of this province.

Nocturnal Disturbers

The Montreal Star under the above caption in commenting on noises at night caused by people tooting automobile horns, letting their engines run with the cut-off open, and other disconcerting noises, says:

"We can do without them, and we ought to be able to impose the will of the populace upon a limited number of incontinent lunatics who elect to spend their nights in making the rest of the community miserable."

Right here in Coleman the same remarks might apply to those people who allow their cows to roam with a clanging bell around their neck. When one is disturbed at night by this infernal nuisance, and the added annoyance of dogs barking at the roaming cows, he is quite justified in calling down the wrath of hell upon the disturbers. But of course the dumb animals are not to blame. It is those people who are absolutely devoid of thought of the rights of others that they are entitled to no consideration themselves, and yet no measures are taken by the council to prevent this abominable nuisance. One's thoughts under such provocation are not fit for publication.

Narrowly Escapes Death

T. Badham, pit boss of the Bryan Mine on the Edison Coal Branch had a miraculous escape from death on the evening of August 8th when he was struck by the engine of a freight train as he was walking on the track between Robb and Bryan. The man was struck and thrown under the locomotive which, owing to the fact that it was travelling very slowly, was stopped within a few feet and the man pulled out from between the wheels. The man suffered two broken ribs, severe bruises and lacerations; he was brought into Edison and taken to the St. John's Hospital where he is making good progress. The narrowness of his escape may be judged from the fact that the crown of his hat and the end of his neck-tie were cut by the wheels of the engine—Edson-Jasper Signal.

Mill Rate Down

The mill rate of the school district struck a few days ago shows a reduction from 22 mills to 20. Taxes are now payable, and up till Sept. 18, a reduction of 10 per cent. will be allowed on current taxes. Save the discount!

If you intend to take a trip to the Old Country for Christmas holidays, get complete information as to sailings by Cunard Line. Complete information given on application to Cunard Steamship Co., Leeson Lineham Block, Calgary, or Phone 200, Coleman.

Here and There

(123)

Tourist traffic to Saint John this season is the largest in its history, and so far is equal if not greater than during the whole of last season. Tourists started arriving earlier this spring, and have continued in much larger numbers than in other seasons.

Colonel Scott, who is successfully producing tulip bulbs at Salmon Arm, British Columbia, believes that the industry has a future. He has one acre under this production with drying, cleaning and storage sheds. He grows fifty-two varieties of bulbs and has about a quarter of a million bulbs on hand growing.

The Alberta Amateur Championships will take place shortly at Banff, Alberta, where the annual Highland Gathering and Scottish Musical Festival is being held from August 31 to September 3. An elaborate programme has been arranged of a Scottish character, many of the athletic contests being peculiar to that race, such as tossing the caber and putting the shot.

Plans are reported to be on foot among sheep raisers to establish in Vancouver a wool grading centre similar to that functioning in Trenton, Ontario, where at present most of the wool business of Canada is conducted. An authority states this would probably have the result of increasing the return to the producer from 25 to 50 per cent.

Although the automobile is sometimes said to be a rival to the railroad, it gives the latter a great deal of traffic. The number of freight cars used by the Canadian Pacific Railway for the transport of automobiles has been issued the past five years, and the latest order of 500 new cars for the company has just been completely filled.

Trans-Atlantic records have been made by two new vessels, the "Duchess of Bedford" and the "Duchess of Atholl," the first two of the new cabin class quartette to be built by the Canadian Pacific Steamships. The former has just accomplished an eastbound voyage from Liverpool to Montreal in six days, fourteen and a half hours, while her sister ship, en route at the same time, made a westbound crossing from Montreal to Liverpool in six days, 13 hours.

The second school car operated jointly by the Canadian Pacific Railway and the Ontario Department of Education has been issued from the Angus Shops, Montreal, for service in the district west of Williamsburg. The car is a modelled first class coach equipped like an up-to-date "little red school-house" with bright classroom, with blackboard, globe, school books, regulation desks, and so forth; a library for the use of students and adult visitors as well; and comfortable living quarters for the teacher. The school car is able to reach remote areas where permanent school facilities are not available.

Antrobus' Sell Good Shoes

ENRICHED in Color

Enhanced in Style

and Offering Even Greater Performance

BEAUTIFUL as the Pontiac Six has been in the past—great as its performance has proved in the hands of owners—

—today's Pontiac Six is even more beautiful, even more thrilling to drive! For, in keeping with General Motors' policy of progressive engineering practice, this lowest-priced General Motors' Six has been enriched in color, enhanced in style and equipped for even finer performance.

To the beauty of style of long, low bodies by Fisher, have been added the swagger touch of smaller, smarter wheels and larger tires, while new and harmonious combinations of Duco colors have been created. Mechanical advancements result in smoother performance and greater power than Pontiac ever offered before. And along with its more stirring response to the throttle, it continues to provide the stamina and long life for which it is famous.

Until you have seen and driven it you cannot realize what style, what color and what performance today's Pontiac Six affords—for here are beauty and snap you never dreamed you could buy at so low a price.

Coleman and Blairmore Tied

Play Off Will Be Played Here on
Sunday in Championship
Series

In the Crows Nest Pass Lawn Tennis Association games Blair more won five of the nine events played on Sunday, making it a tie, as Coleman won five out of nine the previous week.

Sunday's games were as follows: Coleman players first named:

Men's Singles--Lindoe beat Jones 6-4, 7-5; Kwany beat Hnatyshyn 3-6, 6-4, 6-4; McLeod beat McPhail 6-3, 6-3.

Men's Doubles--Lindoe and Kwany lost to Jones and Hnatyshyn 4-6, 9-7, 6-2; McLeod and Barnes beat McPhail and Foote 6-2, 7-5.

Ladies Singles--Mrs. Borden lost to Mrs. Kerr 6-0, 6-4; Mrs. A. E. Graham lost to Mrs. Jones 6-4, 2-6, 6-0.

Ladies Doubles--Mrs. Borden and Mrs. Graham lost to Mrs. Kerr and Mrs. Jones 6-4, 4-6, 6-4.

Mixed Doubles--Mrs. Borden and Barnes lost to Mrs. Kerr and Hnatyshyn 6-0, 6-1.

Funeral of John Petrocki

The funeral of John Petrocki held on Wednesday of last week, was attended by a large number of people from the district, and the many floral tributes sent showed the respect and esteem he was held in.

Wreaths were sent by the following people and organizations:

Mrs. J. Petrocki and family; Mr. Joe Petrocki and family; Mr. Rudolph Dutka and family; Fernie; Mr. Albert Birds and family; P. T. W. P. of Coleman; S. N. P. J. No. 505, Fernie; S. N. P. J. No. 276, Coleman; Mr. and Mrs. Joe Kwany; Mr. and Mrs. Joe Michalsky; Mr. and Mrs. Gushel; Mr. and Mrs. Johnnicki, Blairmore; Mr. and Mrs. Bruno Polack; W. O. M. Legion, Chapter No. 319, Coleman; Mr. and Mrs. A. Oliva; M. W. U. of C.; P. T. K. M. K.; Mrs. Johnson of West Coleman.

Card of Thanks

Mrs. John Petrocki and family and Mr. and Mrs. Joe Petrocki desire to thank all who sent letters to them in their bereavement, and also those who sent flowers and loaned their cars for the funeral. The many expressions of sympathy were deeply appreciated.

Thanks are also expressed to the doctors and hospital staff for their kind attention during Mr. Petrocki's illness.

Many Applicants Seek Job as Chief of Police

BLAIRMORE, Aug. 22--The town council received over twenty applications for the position of chief of police, recently vacated by Constable Spence on joining the Lethbridge force. Two councillors resigned in order to make application, and several local men applied, including a fireman and a taxi-driver. Despite the fact that the salary was advertised at \$150 monthly, one applicant offered to perform the duties of the office and take all the bumps for \$100. His application was promptly dropped into the waste basket. The council decided to appoint an outside man free from any local connections, but have not made their final choice.

Mr. and Mrs. Hoyle and family returned on Tuesday evening from several weeks motor tour, having spent part of the time in Edmonton, and later at Seattle, Wash.

On the Job

~ over all roads
~ in all weathers
~ at all times

WITH the superb ease of a thoroughbred that takes all in its stride, the "Bigger and Better" Chevrolet never falters in the most trying circumstances--proves its mettle on the steepest grades and in the face of the greatest obstacles. The ruggedness of Chevrolet construction alone makes these things possible. There is no part of the engine--of the chassis--of the body that was not designed primarily for rugged endurance--put to the test again and again on the General Motors Proving Grounds.

As a result the "Bigger and Better" Chevrolet sturdily climbs without a halt, the steep slopes of the Rockies, and plunges its way through the deep mud and gumbo of half-made peat trails. In whatever conditions it may be placed, the splendid ruggedness of Chevrolet remains loyal in the service of its owner.

In long life has become proverbial--the very name Chevrolet is a synonym for strength that endures.

The "Bigger and Better" Chevrolet--beautiful in form--lustrous in appointments--supremely rugged in construction--powered by the famous Valve-in-head engine--offers solid, enduring, trustworthy performance even under adverse conditions.

No matter what the roads--no matter what the weather--at all times the "Bigger and Better" Chevrolet stays on the job.

The G.M.A.C. General Motors are dealers nearest place where the most convenient and economical way of buying your Chevrolet on time.

CHAPTER XXX—Continued

"Here are Helmi's letters," at length said Warner; "they belong to you now. They will tell you everything. If I had got over I will take them back, after you have read them. I think if I had had a wife like Helmi I would not have doubted her. I don't think I would. However I am not saying that to hurt you—no one knows what he would do. Anyway I am glad I met you, Jack. And your wife is well and so is little Lili."

"And so you see you must get through. I may, but you must, and if you do will tell Helmi. Come on—our chance is just as good now as it ever will be."

Jack took his hand and pressed it. "Arthur, I can't tell what I want to say—you have been a better friend to Helmi than I have."

The bridge was a fine iron one with heavily studded pillars. Every second light was burning. The road leading to it was not much travelled, and as they walked up the long approach their feet made a strange echoing sound. They had left their blue overcoats open, showing the gray German smocks. Jack knew what he was to say in German if accosted, but their hope was that no one was on the bridge. Every step brought them nearer, and the lights ahead of them on the Hofland side twinkled like the lights at home.

Jack's heart was in a strange turmoil over what he had heard. "On, on—they were half-way over now... steps echoing, echoing... no sound but the gentle murmuring from the other side, gentle smothering... dogs barking... cow-bells... they must hurry... on, on... ten feet from the end now! Suddenly from behind the last pillar stepped out a German guard, who thrust a flashlight in their faces, blinding them with its sudden gleam. At the end of his rifle a bayonet gleamed in the light.

"Halt!" he cried.

"Why do you halt us? We are honest men," said Arthur quietly.

"Give me your passports, then," said the guard, putting away his flashlight, but not lowering his rifle. Pretending to search his pockets, Arthur moved a little, then like a tiger he sprang on the guard, grasping him around the neck.

"I'll hold him, Jack!" he shouted. "Beat it! You're safe! Beat it!"

Jack found refuge in the trees on the other bank. There was a queer singing in his head, something coming like a swarm of bees. Then came a sudden pain in his shoulder like a

knife thrust, and looking down, he saw the blood running off his fingers. But he must see what happened. He crawled to the edge of the trees and looked back. Three guards were standing together, talking excitedly. He could see nothing of Arthur, but the smoke of rifles still hung around the pillars of the bridge. He crawled back into the trees and lay on the damp leaves, sobbing like a child. He was free; he was safe; but the loss of his friend was heavy on his heart.

CHAPTER XXXI

It was a hot night in London in the early spring. The lights shone ghostly blue through their painted globes, and across the starless night search-lights stretched their spectral fingers, crossing, passing, converging, crossing again. Through the streets, in spite of the sombre gloom and the dangers of the night, an endless stream of people drifted, making a brave show of unconcern. The trees were crowded, the dance halls echoed with rhythmic feet, and tinkled with laughter; and although grief, fear, and a sense of loss walked with every soul in London, the sound of their ominous footfalls were drowned by laughter and singing, true to the brave old British tradition.

At Victoria Station the V.A.D.'s were assembled with their waiting stretchers, for a hospital train was coming in. There were the usual numbers of a great station—hooting of sirens, blowing of horns, calling of railway officials—all the sounds multiplied by the vaulted station roof. There was the usual variegated and cosmopolitan crowd, though the dominant note was the khaki of the thickest, calm-faced Englishman; here the slight Canadian, independent, and actually looking for some one, and not ashamed of appearing anxious; there the blue-uniformed French officer, darning through the crowd with a purposeful, businesslike air.

They are removing men on stretchers now, and the V.A.D.'s are busy. Very skilfully they manage to roll the bedcases to the stretchers and carry them to the waiting ambulances—pallid faces, all of them, some bandaged, but most of them smiling bravely, too, and glad to be home.

There is one V.A.D. looking very slim in her blue serge uniform who looks feverishly at all of them, some bandaged, but most of them smiling bravely, too, and glad to be home.

She stops with a cry of gladness. "Jack, oh, Jack!" she cries, as a young man with his arm in a sling is passing. "Jack—it's Eva—don't you know me?"

She threw her arms around him. "It's my only brother—my only brother," she says to her companions, who wait for her. "Jack, are you a hospital case, or can you return?"

"I have a fat, I can put you up. All right, wait for me inside on the first bench—I'll be through in half an hour."

Jack sat on the bench inside watching the crowds endlessly melting around him. He was surprised to meet his sister here when he believed her to be safe in Winnipeg. He wondered what had brought her to London—Eva, the luxury-loving, indolent Eva. It was strange to see her in plain uniform, carrying stretchers. But there was a high look on her face that transformed her. She looked more like the Eva he had known long ago.

Eva came for him at last and led him to the rear of the great station, where endless cars were parked, and put him into one which seemed very small and low.

"We pay a license according to wheel base, you know," she laughed; "and anyway, a car is a car, no matter how small it is. Oh, Jack, it's good to see you, and I have a bed ready for you. I've kept lots of the boys—I've been here six months."

Eva brought him to her room in Middle Vale, and switched on a light revealed a luxurious living-room, all in black and silver.

"Do you like it, Jack?" she asked with evident pride. "I work all day in a misery and horrors so I have to have beauty at night."

A large black velvet divan, with round black cushions occupied one side of the room, the rug was black with a faint silver border—the fire-

place black and white tiles, and on the mantel were silver candlesticks and a silver wrought image of the Madonna. On the black lacquered table stood a silver basket with American Beauty roses.

A slim maid appeared with coffee and sandwiches.

"We'll have a real meal later, Jack," said his sister. "And now tell me where you have been."

"First," said Jack, "tell me how you happened to come over?"

Eva laughed. "You will wonder, I know, but I couldn't stand it after the crowd broke up—and I guess I missed Humphrey, too, though I won't admit it, because we had a row before he left, and he said things to me I shall never forget. But anyway, everyone was kidding and making handbags, and I couldn't get into it. So I rented the house and I can sit easily here on the money. I really like the work I am doing, and I love the boys—they are so brave. I bring them home with me sometimes and write their letters and listen to their stories. I have one little extra room—and really, Jack, I never was so happy in my life. Now tell me your story."

Jack told her of his capture, imprisonment, escape, his friend Arthur Warner and his sacrifice.

Eva's eyes were filled with tears as she listened. "Oh, Jack, wasn't it brave? But why did he do it—why did he love you so?"

"It was not for me—it was his love for my wife."

"Why, Jack, I didn't know you were married. Now begin at the beginning. Wait, do you want to go to bed first? You look pretty weary. You see I am a pretty good nurse now, and I know how to take care of people."

"No, I am fine," said Jack. "My shoulder is nearly well again. I have had two months in the hospital with it, and I want to tell you all about it."

Jack began with his meeting with Helmi at Eagle Mines; their marriage; by the magistrate; the magistrate's objection; and his showing of the newspaper report.

(To Be Continued.)

Would Solve Anastasia Puzzle

Noted Historian Believes He Has Solution Of Controversy

Dr. Edward A. Walsh, S.J., vice-president of Georgetown University and a noted historian, believes he has in his possession a documentary solution to the Grand Duchess Anastasia controversy.

Whether it will uphold the woman now in the United States, under the protection of William B. Leeds, Jr., and known as Madame Cecilia, as a true daughter of the late Czar Nicholas of Russia, or brand her as an impostor, Dr. Walsh will not speculate.

He is certain the mass of documents and records which he recently brought to this country from Europe, will settle, at least in his own mind—whether or not the Grand Duchess escaped the massacre of the Imperial Russian family to flee to England.

For the past seven years, the Jesuit priest has been conducting a historian's investigation into the facts surrounding the deaths of Czar Nicholas and his immediate family. His studies have carried him to Russia, Belgium, France, Austria, Switzerland, England and Italy.

Manitoba Old Age Pensions

Pension Act Has Now Come Into Operation In Province

The Manitoba Government has by Order-in-Council brought into effect the Old Age Pension Act, passed at the last session of the provincial legislature. Beginning on September 1, pensioners whose applications have been approved by the Manitoba Workmen's Compensation Board will receive the stipulated pension of \$20 a month.

It is reported that 3,000 persons have already made application for a pension. Effort will be made to review these during the next month to determine the exact number eligible.

Under the terms of federal old age pensions legislation half the cost will be borne by the Dominion Government, while the province will meet the remaining outlay. It is estimated that \$200,000 will be required for the initial levy.

All persons who have attained 70 years and have resided in Canada for 20 years and five in Manitoba qualify for a pension.

Wrigley Marathon

Four Channel Swimmers Are In The Third Wrigley Swim
Among the three hundred odd entries received up-to-date by the Canadian National Exhibition for the Third Wrigley Marathon, which carries with it to the winner the world's long distance swimming championship as well as a prize proportion of \$50,000, are four Channel conquerors.

When Gertrude Ederle set a new mark in 1924, Lord Riddell, owner of the "New York World" made an offer of \$1,000 to the first Britisher to beat her time—man or woman. Norman Derham, after three futile attempts accomplished this, swimming the distance in 13 hours 55 minutes. He is an entrant this year and is now in training at Hanlan's Island. He is a very strong swimmer and seemingly immune to cold water.

Ernest Victorotto, the winner of the Marathon last year, has at last commenced intensive training and it is remarked by those who have seen him in action that he has improved his style and speed since expending the premier prize last year.

The total entries now number considerably over 300.

Ancient Copper Mine

Remarkable Find Is Reported On Isle Royale In Michigan

An ancient copper mine, eighty feet long and hidden 30 feet or more beneath a ledge of copper bearing rock, has been unearthed near Hay Bay, on the southern edge of Isle Royale, by archaeologists exploring the island. Dr. George West, Milwaukee scientist, with the expedition, advanced the theory that some early tribe of Indians, perhaps a thousand years ago, dug from the copper veins the ore that was precious to them for tokens for peace, arrow points and ornaments.

Demand For Irrigated Land

Increased demand for irrigated land in Southern Alberta is the fact that the Canada Land and Irrigation Company find it necessary to open up another unit of the Vauxhall project to meet the demand, a step it was not planned to take until 1930.

Newsprint Production

Newsprint paper has formed over 50 per cent of the total production of Canadian paper-mills since 1917. In 1925 it was \$3.4 per cent.

FIRESTONE WICK TEST

The jar at left is filled with Gum-Dipping solution. The other jar is empty at first. One end of the wick—made of cords used in Firestone tires—is placed in the solution, the other in the empty jar. Solution penetrates entire length of the cord wick showing that Gum-Dipping saturates the cords.

This exclusive Firestone process insulates every fibre with rubber, reduces internal friction and gives thousands of extra miles. Firestone tires cost no more than ordinary tires. Your local Firestone Dealer will gladly serve you, and save you money.

The Columbia Ice Field

New Inclusion In Extension Made To Jasper National Park

The extension of 950 square miles made to Jasper National Park, Alberta, in 1927, brought the Columbia Icefield within national park boundaries. This giant icefield, one hundred and twenty-five miles in extent, which is the mother of more than a score of glaciers, is surrounded by a galaxy of giant peaks and represents the very climax of the scenic and alpine features of the Rockies.

SUMMER COMPLAINTS

KILL LITTLE ONES

At the first sign of illness during the hot weather give the little one Baby's Own Tablets or in a few hours he may be beyond aid. These Tablets will prevent summer complaint if given occasionally to the well child, and will promptly relieve these troubles, if they come on suddenly. Baby's Own Tablets should always be kept in every home where there are young children. There is no other medicine as good and the mother has the guarantee that they are absolutely safe. They are sold by all druggists or will be mailed on receipt of price, 25 cents a box by Dr. Williams' Medicine Co., Brockville, Ont. A little booklet "Care of your child in Health and Sickness" will be sent free to any mother on request.

Declining Birth Rate In Italy

Despite the tax on bachelors, prizes for large families and press campaigns for increasing the population, the birth-rate in Italy is steadily declining. If it were not for the prolificness of the south the situation would be very grave. The Popolo d'Italia gives figures for many big towns, from which it would appear that in all of their deaths exceed births.

Relief From Asthma—Who can describe the complete relief from suffering which follows the use of Dr. J. D. Kellogg's Asthma Remedy?

Who can express the feeling of joy that comes when its soft and gentle influence relieves the tightened, choking tubes? It has made asthma an affliction a thing of the past for thousands. It never fails. Good druggists everywhere have sold it for years.

How Fast a Bee Flies

An experiment was made to see how fast a bee can fly. The bird was attached to the roof of a train, which attained a speed of 30 miles an hour before the bee was left behind.

It's pretty safe to judge bank cashiers by their disappearances.

Little Helps For This Week

"But let us, who are of the day, be sober: for shame, and for an helmet, the word of salvation."—1 Thessalonians I, 8

I wake this morn, and all my life is freshly mine to live; Thus I can express the feeling of joy that comes when its soft and gentle influence relieves the tightened, choking tubes? It has made asthma an affliction a thing of the past for thousands. It never fails. Good druggists everywhere have sold it for years.

New words to speak, new thoughts to bear.

Not love to give and take; Perchance new burdens I may bear For love's own sweetest sake.

Every day that is born into the world comes like a burst of music, and rings itself all the day through; and thus shall make it a dance, a dirge, or a life march as thou wilt.

—Thomas Carlyle.

Minard's Liniment For Bilistered Feet.

Prosperous Indication

Federal Government Will Meet Maturing Loans By Paying In Cash

An indication of the present condition of financial conditions in Canada is given in this announcement that the Canadian Government Department of Finance will not find it necessary next October to do any special financing or refunding to meet maturing loans. When Government loans to the amount of \$33,000,000 fall due in October of this year they will be paid off in cash. In recent years it has been customary to take care of loans when maturing by a refunding process.

Teeth and Health

Insured By The Canadian Dental Hygiene Council and Published By The Saskatchewan Dental Society

THE INCISORS

You are very particular to keep these eight front teeth (four upper and four lower), white and sound, so their function, then to you, would seem largely esthetical. But they have another use from which they take their name—that is to incise, or cut.

In your child you have seen them erupt with three distinct tips or tubercles, which by and by have worn down to leave a straight cutting edge.

This nothing is a purely normal development, being due to the calcification of the enamel covering from three separate centres. Now, you have noticed too, with perhaps no little concern, that upon eruption, the two upper front teeth (central incisors) are much wider apart than the two to the size of the face, giving them an ungainly appearance.

Now try this: consult a mirror, and note the shape of your face. To which of the three types does it incline, tapering, oval or square? Then study the form of your upper central incisor—imagine it inverted, and observe that it conforms to the shape of your face. Nature is very attentive to details, ever striving for harmony. Remember then, that you must give redoubled zeal to the care of these incisors, which are not merely useful, but are also an asset to your appearance, if rightly cared for.

Miller's Worm Powders were devised to promptly relieve children who suffer from the ravages of worms. It is a simple preparation to destroy stomachic and intestinal worms without shock or injury to the most sensitive system. They act thoroughly and painlessly, and though in some cases they may cause vomiting, that is an indication of their powerful action and not of any nauseating property.

How Fast a Bee Flies

An experiment was made to see how fast a bee can fly. The bird was attached to the roof of a train, which attained a speed of 30 miles an hour before the bee was left behind.

It's pretty safe to judge bank cashiers by their disappearances.

NEW masterpiece Bodies by Fisher...

In one tremendous stride, McLaughlin-Buick has over-leaped old modes of car design and attained an order of beauty without parallel in the automotive world. To know the new style—to appreciate its superiority—simply see the 1929 McLaughlin-Buick with new Masterpiece Bodies by Fisher.

The world's foremost builder of automobile bodies has co-operated with the world's foremost builder of fine cars to produce the most beautiful creations ever shown. And with what result!

Dashing new lines, different from any heretofore known—longer, larger, more luxurious bodies, matches in their grace and symmetry—gorgeous new color harmonies—the richest of upholstery and appointments—wider rear seats providing plenty of room for three adult passengers—an ensemble of beauty and luxury that has never been equaled.

New and deeper radiator lines—new chrome-plated headlamps and cow-lamps—new wheel and fender design—all combine to lend incomparable poise, sleekness and distinction.

The new McLaughlin-Buick Bodies by Fisher mark the supreme achievement of the body-builders' art. To see the 1929 McLaughlin-Buick is to see the most beautiful and fashionable car of the year, as well as the most capable and comfortable.

Local News

Mr. and Mrs. J. A. McDonald and Mr. G. McAuley will leave in a day or two for three weeks' holiday on a motor tour through the western States and will visit the coast cities.

Antrobus' Shoe Store is more prominent by the placing of an electric sign which will help to illuminate that particular spot, and which denotes enterprise on the part of the proprietor.

Mr. and Mrs. A. M. Morrison and daughter Ruth left yesterday for a month's holiday at the Pacific coast cities. Ruth will remain at Victoria, where she will enter St. Margaret's school.

Mr. Cromie, of the Commercial High School, Calgary, and F. Woodman, of Central High School, were the guests of Ross Powell over the week-end, and enjoyed a few games on the golf courses at Fernie, Blairmore and Pincher Creek.

Mr. and Mrs. Emmerson returned on Friday from a holiday to Spokane, Mrs. Emmerson having spent the past month in California. They returned via the Banff-Windermere route, visiting Banff on the way.

Mr. and Mrs. Dave Gillespie and daughter Peggy, and Geo. Reid, returned on Sunday from an enjoyable week's camping at the North Fork and had a fine catch of fish. Bus Clarke went out on Sunday and brought the party safely home.

See the values in "Tip Top" Suits and Overcoats at Chas. Nicholson's store.

The Rev. A. D. and Mrs. Currie and Mrs. Cartwright are visitors in Calgary for a few days.

Miss Gladys Lee came up from Lethbridge to spend the week-end at her home.

Mr. and Mrs. Chas. Nicholson are holiday visitors this week in Calgary and Edmonton.

The gravel crusher is now at work and the main highway through town is being surfaced.

Coleman Trading Co. offers some exceptional specials this week, and attention is drawn to their advert. on page 5.

The Women of Mooseheart Legion will hold a Whist Drive and Dance in the Oddfellows' hall on Saturday, August 25th.

Mr. John Johnston, father of Mrs. Joe Plante, and son Harold of Spokane are visiting here for a few days.

Mr. and Mrs. W. J. Harris have returned from spending a month at Mayorcraft, and Mr. Harris is now preparing for the fall term in the re-opening of classes in violin.

Mr. and Mrs. Leslie, of New Norway, Alta., were the guests of Mr. and Mrs. Ed. Brown last week end, and visited Waterton Lakes Park.

The constituency of the Women's Institute will hold a picnic for all locals in the district at Lundbreck Falls on Wednesday, September 29. All members and their children are invited.

Miss Ruby Wood of Calgary has been appointed to the staff of the high school, succeeding Miss Pennington, who has been appointed to the high school at Vermillion, Alta. Miss Gooze, who commenced teaching in the high school last year, will resume her duties here.

The one year old son of Mr. and Mrs. Mike Ferro, died on Saturday and was buried on Monday, the service being held at the Holy Ghost church. Members of the Ordre Independente Fior D'Italia and the ladies lodge marched in the procession to the cemetery.

The last word received from the party of strayed husbands who left here on Sunday indicated that they had not run into any kind of danger up till the time they reached the border, but there has been no word received since. One lady took the precaution of taking a photo of her husband just prior to his departure, presumably for identification purposes.

Watson Accepts

City Manager

John T. Watson has accepted the position of city manager and hopes to take up his duties on September 1st, by arrangement with the East Kootenay Power Company, for whom he is at present working.—The Lethbridge Herald.

Mr. Watson has been superintendent of the plant of the Power Corporation of Canada at Crow's Nest Lake since it was put into operation in 1927, which is the most modern steam generating plant west of the Great Lakes.

Real Old Timer

Visits Coleman

John Johnston Was One of the Riders of the Plains at Old Fort Macleod

A very interesting visitor this week is Mr. James Johnston, one of the few survivors of the original force of the Royal Northwest Mounted Police which came west from Toronto in 1874 under Colonel French, and proceeded through the United States to Moorhead, Minn., trekking from there north to Winnipeg and thence west to the then great lone land, where police posts were established and the foundations laid of the prosperous cities, towns and rural communities that exist to-day.

Old Fort Macleod was the post where Mr. Johnston spent most of his service in the force, and many interesting anecdotes he recalls of the days between 1874 and 1880, of the long march west when men and horses were hard put to it for rations, and of the pleasures that were bright spots in the round of duty in the days when people were few and the whole country was "about" to rooster over, with only the Indians and the buffalo for company.

"But," says Mr. Johnston with a smile, "I used up my legs pretty well hunting ducks, as I always kept a hunting dog even when I was in the force."

Though 77 years of age, Mr. Johnston is as vigorous as a man of forty, and the Stetson hat which he wears gives him that jaunty appearance so characteristic of the old Riders of the Plains. Moreover he is not bald, does not wear glasses, and is bright, snappy and humorous in his conversation. He is an outstanding example of the old dictum that hard work never killed anybody, and judging by his vitality is good for many years to come. It is indeed a pleasure to meet such a gentleman, whose advanced years have not dimmed his optimism in regard to life in general.

His home is in Spokane, Wash., and he is visiting relatives here for a few days. He keeps himself informed on the activities of the Crow's Nest Pass and is a regular subscriber to The Journal.

Pipe Band on the Concertina

A recent arrival from Scotland, a Mr. Anderson (it is presumed his name is Jock) has become famous locally by his handling of the concertina keys. He can play tunes resembling anything from a cuckoo crowing in the early morning to a full brass band, or the bagpipes, and so enticing is his music that the boys had an open air dance on the street corner.
